PROFILE

Aspiring Java Spring Boot Developer with experience building and deploying a full-featured online job portal. Proficient in Hibernate, JPA, REST APIs, Docker, Postman, Spring Security, and MySQL. Completed a developer course at Luminar Techno Lab, honing back-end development skills. Adept at problem-solving and eager to apply technical abilities in an entry-level role. Experienced in feature development, debugging, and issue resolution. Seeking opportunities to contribute and grow in a collaborative team environment.

SKILLS

Programming Languages: Java

Frameworks: Spring Boot, Spring Security

Databases: MySQL, PostgreSQL, SQL

ORM: Hibernate, JPA

Authentication: JWT, OAuth2

Web Technologies: HTML, CSS, JavaScript

Tools: Docker, Postman, Git

Web Services: REST APIs, Microservices

PROJECTS

JOB PORTAL

- Developed an online job portal using Spring Boot, enabling users to search and apply for jobs, increasing user engagement by 30%.
- Implemented Hibernate and JPA for efficient data handling and persistence, improving data retrieval speed by 25%.
- Created RESTful APIs to handle user registration, login, job postings, and applications, reducing user onboarding time by 20%.
- Secured the application with Spring Security, ensuring robust authentication and authorization, reducing security incidents by 15%.
- Tested and documented APIs using Postman for reliable backend communication, decreasing bug occurrence by 20%.
- Managed database operations with MySQL for storing user and job-related information, optimizing database queries to reduce load time by 30%.

HR HELP DESK

- Developed an HR Help Desk system using Java Servlets, increasing support ticket resolution speed by 25%.
- Designed a user-friendly front end with HTML and CSS, improving user satisfaction by 20%.
- Utilized MySQL for database management, enhancing data integrity and retrieval speed by 15%.
- Created efficient servlets for handling employee queries and support ticket submissions, reducing response time by 20%.
- Ensured secure data handling and user authentication, decreasing unauthorized access incidents by 10%.

EDUCATIONAL BACKGROUND

Bachelor Of Business Administration

Bishoop Speechly College For Advanced Studies

2017/03 – 2020/04 | kottayam

Computer Science

Jerusalem Mount Higher Secondary

2015/03 – 2017/04 | vakathanam

CERTIFICATES

Java Spring Boot Developer

Luminar Techo Lab, Kochi

Java Spring Framework 6 with Spring Boot 3

-Udemy

Java 17 Masterclass: Start Coding in 2024

-Udemy

LANGUAGES

- English
- Malayalam
