Bill Christin Mathew
Java Full Stack Developer

✉ billchristinemprayil@gmail.com   📞 8075182756

📍 Kottayam,kerala

Profile

Energetic and motivated Java Full Stack Developer with a solid foundation in software development gained through academic coursework and hands-on projects. Proficient in all phases of the Software Development Life Cycle (SDLC), adept at leveraging Java technologies for both front-end and back-end development. Skilled in utilizing key technologies such as Spring Boot, Hibernate, and React.js to create robust and user-friendly applications. Demonstrated ability to collaborate effectively in a team environment and a quick learner with a passion for staying up-to-date with the latest industry trends.

Projects

ONLINE CAR RENTAL MANAGEMENT

The Online Car Rental System is a web-based application designed to streamline the process of renting vehicles through an online platform. It offers users a convenient and efficient way to search for, book, and manage car rentals for various purposes such as travel, business trips, or special events.
Using technologies such as Java Servlets, JSP, JDBC, HTML, CSS, JavaScript, and database management systems like MySQL the system provides a robust and user-friendly interface for both customers and administrators

HUMAN RESOURCE HELP DESK

Developed a Java Servlet project for an HR Helpdesk Management System, featuring login, registration, and ticket management functionalities. The system enables employees to raise tickets for HR-related issues, while allowing HR personnel to manage and resolve them efficiently. Key responsibilities included implementing user authentication, ticket raising modules, and backend logic for ticket management.
Technologies used include Java Servlets, HTML/CSS, MySQL, and Apache Tomcat Server. Successfully delivered a user-friendly and secure solution for streamlining HR operations within the organization.

Languages

- English
- Malayalam

Skills

Languages: Java, JavaScript, C

Front-End: HTML, CSS, React.js

Back-End: Spring Boot, Hibernate

Software Architecture: Model View Controller

Design Patterns

Database: MySQL, PostgreSQL

Learning Agility: Enthusiastic about continuous learning and adopting new technologies

SDLC :Software development life cycle

Problem-solving: Strong analytical and troubleshooting skills

Educational Background

Java Spring Boot Developer Internship Programme
2023/12 – 2024/04 | Kochi, India
Luminar Technolab

Bachlor Of Business Administration Bishoop Speechly College For Advanced Studies
2017/03 – 2020/04 | kottayam

Higher Secondary Jeruselem Mount Higher Secondary School
vakathanam
Computer Science
